

New2000Eco

IWB support

IWB floor support New2000Eco is the ideal solution to have an independent multimedia workstation with a minimum cost. The structure is equipped with ST and UST projector support. Thanks to its mounting and dismounting simplicity it can be assembled in a very short time. Moreover, when disassembled it can be easily transported in the trunk of the car. New2000Eco is suitable for IWB of any brand, with width not less than mm. 1250 and height between mm. 720 and mm. 1340.

- Iron fixed structure light grey colour, with 4 height adjustable feet.
- Included in the supply: set of suitable screws, double use key and assembly instruction.
- Plate with provision for mounting: Epson EB-4XX original bracket, Sanyo XL-50/DWL2500/DXL2000 original bracket, Luxi universal bracket code STAF014.
- Optional accessory: 4 swivel wheels (2 with brake), non-marking, maximum load for each wheel Kg. 40.
