Display stands for sanitizer

For wall and floor

Practical display stands for sanitizing gel, for wall mount of to floor with column. Sturdy Made in Italy construction in iron and aluminum. Ideal for public places, shops, schools, companies, communities and in general wherever there is a constant flow of access with the need for a hand sanification point. The wall version can be easily fixed with two screws; in the floor version the height is adjustable.

- Wall stand in painted iron
- Anodized aluminum column
- Optional visual display for warnings
