

Motorized screens> Tensioned and not tensioned

BigSuper25

Motorized screens

Professional electric screens, characterized by excellent construction quality and materials used. These screens are particularly suitable for large spaces equipped for a numerous audience where high-quality projections are necessary, such as in university lecture halls, conference rooms, cinemas, theaters, and for sports, cultural, and musical events. BigSuper25 screens can be supplied with or without a casing.

With casing: made of matte white painted aluminum, steel side plates, and steel brackets that can be freely positioned along the entire length of the casing for mounting the screen to the ceiling, wall, or truss structures.

Without casing: features an anodized aluminum tube with a diameter of 150 mm and side brackets for wall and ceiling mounting.

Both versions come complete with pre-set upper and lower limit switches, an electrical switch, and an installation, use, and maintenance manual. BigSuper25 screens can be produced with or without black borders and with or without side tensioning.

- Available Formats: 1:1, 4:3, 16:9, 16:10, custom;
- Available Screen Surfaces: White, Hi-Gain White, Contrast Grey, Sonora, Rear Pro;
- Supplied with or without black side borders, with or without side tensioning;
- Standard rear fabric drop (front drop available on request at no extra charge);
- Motor on the left side (on the right side available upon request at no extra charge);
- Aluminium casing, matte white painted, open on the lower side.;
- Version without casing with 150 mm diameter aluminium winding tube;
- Somfy electric motor, 230V-50Hz power supply, 170W 0.80A power consumption, IP44 protection rating, 17 rpm;
- Standard supply for the version with casing: ceiling mounting brackets, side safety chains, adjusted upper and lower limit switches, wall-mounted electrical switch, installation, use, and maintenance manual;
- Accessories available upon request for the screen with casing: wall mounting brackets, brackets with Alsicaf for truss mounting;
- Standard supply for the version without casing: side brackets for wall and ceiling mounting, adjusted upper and lower limit switches, wall-mounted electrical switch, installation, use, and maintenance manual;
- Optional accessories for both the screen with and without casing: radio remote control, complete 12V trigger kit + radio remote control;
- CE certified screen, 2-year product warranty and 5-year electric motor warranty.
