More than one Interactive

Extend the potential of the Interactive Table compatible with STEAM products, essential for training the minds of the future

THE CREATIVE SOLUTION FOR CODING

Learning to coding is a child's game

KUBO is a coding solution for students ages 4 to 10+. KUBO is an excellent tool that helps teachers introduce coding to students, but it is also a great way for students to begin their knowledge of coding.

Build your own digital map and you decide where to run Kubo.

With the Interactive Table, you no longer have to print maps

Compatible

Kubo® is a product sold separately.
