Big Super 750-850

Motorised screens

Professional motorised screens, designed with high quality materials and attention to detail. These screens are the ideal solution for permanently installed applications in large environments, equipped for a large audience where it is therefore necessary to have high quality projections, such as for example university and congress halls; cinemas and theatres, sporting, cultural and musical events. Big Super can be supplied with and without case, with and without black borders, with and without lateral tensioning system.

The case is available in white or black version; the counterweight perfectly closes with the case when the screen is closed. The special electric motor has a smart force measurement, with automatic block when the counterweight is stuck in.

The version **without case** is equipped with big diameter aluminum rolling tube, steel lateral brackets for wall and ceiling mounting and anchoring chains.

Both the models are supplied with up and down limit switches sets, wall electric inverter and instruction booklet. Accessories available on request are: radio remote control and aliscaf brackets for truss mounting or eyebolts brackets.

- Available projection surfaces: White, Hi-gain White, Sonora and Rear Pro, ratios 4:3, 16:9 and, 16:10 with and without black borders.
- Standard front unrolling of the projection surface for the version with case; standard back unrolling of the projection surface for the version without case (to protect it against dust and weather damages).
- Aluminum case painted white or black; aluminum big diameter tube; iron brackets.
- Electric single-phase motor, CE, 5 years warranty 230V -50Hz, 240W 1,1A, protection IP44, 12 rpm.
- Limit switches factory adjusted, possibility to change the settings if necessary. The screen can be stopped at intermediate positions with the electric switch.
- steel wall and ceiling brackets standard supplied (2 pcs). Eyebolt brackets and aliscaf brackets available on request (screen with case)
- Lateral steel wall and ceiling brackets and anchoring chains (screen without case)
- Wall electric switch included in the standard supply.
- Radio remote control available on request.
- Screen CE certificated, 24 months warranty from the purchase date, at the conditions indicated in the instruction booklet.
- Steel bar reinforced packing.
